

## Sponsors/Exhibitors

### BC Bioenergy Network

The BC Bioenergy Network is a not-for-profit, non-governmental organization that assists with the deployment of near-term bioenergy technologies and organizes mission-driven research for the development and demonstration of new environmentally sustainable technologies for the province of BC.

### Pristine Power

Pristine Power Inc. is in the business of developing, owning and operating independent power facilities that will produce and sell electricity, and in some cases, sell process steam to industrial users. Pristine's aim is to become a leading independent power producer in Ontario, British Columbia and Alberta.

Pristine Power trades on the Toronto Stock Exchange under the symbol PPX.

### Department of Foreign Affairs and International Trade

The Department of Foreign Affairs and International Trade is responsible for ensuring that Canada's foreign policy reflects true Canadian values and advances Canada's national interests. DFAIT works with a range of partners inside and outside government to achieve increased economic opportunity and enhanced security for Canada and for Canadians at home and abroad.

### Viessmann

For three generations, Viessmann has been providing comfortable, efficient and environmentally responsible heating solutions, tailored to the needs of the market. With ongoing research and development and a focus on product innovation, Viessmann has pioneered technologies that have continuously set standards and made the company into a technological innovator and pacesetter of the entire industry.

### Fink Machine Inc.

Fink Machine Inc. supplies high quality Bioenergy equipment to suit your Commercial, Institutional and/or Industrial heating requirements. Our fully automatic wood fired boilers, chippers, and briquette presses complete the entire wood waste to bioenergy process... saving you money, while reducing your wood waste as well as reducing your carbon foot print.
